Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicants believe the above-identified application has been abandoned since December 6, 1997 due to a non-response to a Notice to File Missing Parts dated September 5, 1997. Applicants submit the Notice was not mailed to the correct business mailing address, and therefore Applicants were unable to respond to the Notice. In the past, Applicants submitted two requests to Withdraw the Holding of Abandonment. The first request was submitted on August 24, 1998, and the second request was submitted on April 2, 1999. A postcard returned with the USPTO mailroom date stamp was received in both cases. However, Applicants still have not had a response from the PTO concerning their petition. Applicants are filing this petition to reinstatement the referenced application and are petitioning the Assistant Commissioner to either withdraw the holding of abandonment or in the alternate to revive the above-captioned application which has been unavoidably abandoned.

U.S. Serial No. 08/876,132

Page 2

Applicants filed the above-referenced application on June 23, 1997. The application filing papers included the Applicants current business address (Genencor Inc; 925 Page Mill Road Palo Alto, CA 94304). (Exhibit 1). After a six-week period, no other communication was received from the USPTO in the referenced application. On January 27, 1998 Applicants submitted a Request for Status of the Application. This request was received by the PTO as documented on the returned postcard with the USPTO mailroom date stamp. (Exhibit 2). A response was never received for the status request. On May 13, 1998, our Washington Associates at the time, Landon & Stark, inspected the USPTO prosecution file and found the Notice to File Missing Parts dated September 5, 1997. This Notice was incorrectly sent to Applicants' employers former business address (180 Kimball Way, South San Francisco, CA 94080). (Exhibit 3). The correct business address as originally indicated on the filing papers (Exhibit 1) was 925 Page Mill Road, Palo Alto, CA 94034.

After Applicants became aware of this problem, a Petition to Withdraw the Holding of Abandonment was filed in a timely fashion (dated August 24, 1998). (Exhibit 4). The following documents were also filed with the request: (1) a Request for a corrected Official Filing Receipt; (2) a Change of Address; (3) a Preliminary Amendment with attachments; (4) a Paper Sequence Listing; (5) a Statement of Sameness; (6) an Information Disclosure Statement; (7) PTO-1449 including 11 references; (8) a response to the Notice to Filing Missing Parts including an original signed declaration and fee; and (9) Form 1533. These papers were received in the USPTO on August 27, 1998 as indicated by the USPTO mailroom stamped date on the returned post card. (Exhibit 5).

When Applicants did not receive a further communication from the USPTO, a second Request to Withdraw the Holding of Abandonment was filed on April 2, 1999. (Exhibit 6). This request included a copy all of the documents submitted in the first request. Again the USPTO mailroom's date stamp on the return postcard indicated the documents were received at the USPTO on April 5, 1999. (Exhibit 7).

On August 30, 2000, Applicants' representatives received a telephone call from Ms. Helen Childs at 703-308-4549 indicating all the papers were received in the

Sir:

Applicants believe that the above-identified application has been abandoned since December 6, 1997, due to non-response to a Notice to File Missing Parts mailed September 5, 1997. Applicants submit that the Notice to File Missing Parts was not mailed to their current mailing address and therefore, Applicants were unable to respond to the Notice. Accordingly, Applicants Petition to Withdraw the Holding of Abandonment.

The above-identified patent application was filed on June 23, 1997. After a six month period, no other communication on the above-identified application was ever received by Applicants. On January 27, 1998, Applicants submitted a Request for Status of the Application to which a response was never received, see Attachment 1. On May 13, 1998, our Washington Associates, Landon & Stark, inspected the USPTO prosecution file and found the Notice to File Missing Parts mailed September 5, 1997 which had the former business address (180 Kimball Way, South San Francisco, CA

U.S. Serial No. 08/876, 02

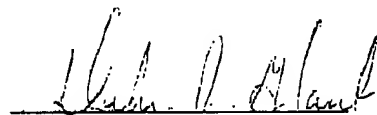

Page 2

94080) for Applicants' employer, Genencor International, Inc., see the Notice to File Missing Parts, see Attachment 2. Applicants note that the misaddress of the Notice occurred even though Applicant's correct business address at 925 Page Mill Road, Palo Alto, CA 94034, was apparent on the patent application transmittal letter, see Attachment 3. Applicants submit that because the Notice was misaddressed, they never received the Notice and could not have responded. Therefore, Applicants Petition for a withdrawal of the Notice of Abandonment of the above-identified patent application.

The Commissioner is hereby authorized to charge the fees necessitated by the filing of these documents, or to charge any additional fees under 37 C.F.R. 1.16 and 1.17 or to credit any overpayment, to Deposit Account No. 07-1048. This communication is submitted in triplicate for USPTO accounting purposes.

Sir:

Applicants request a withdrawal of the holding of abandonment for failure to file a reply to the Notice to File Missing Parts pursuant to MPEP section.

Applicants never received a Notice to Comply with Missing Parts of an Application which was mailed 9/5/97. Applicants docket records indicate that no Notice was ever received. Applicants mailed a request for status of this patent application on January 27, 1998 and no response from the USPTO was ever received.

On May 13, 1998, Applicants provided Barbara Landon with a Power to Inspect the file and learned that a Notice to Comply with Missing Parts had been mailed by the USPTO on September 5, 1997 to an incorrect address: 180 Kimbal Way South San Francisco, Ca, Applicants former address, even though Applicants current address was on all the patent application filing documents.

Applicants provided a request to withdraw the holding of abandonment along with the Response to the Notice to Comply mailed on August 24, 1998.

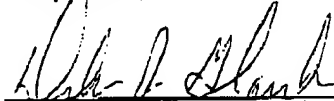

U.S. Serial No. 08/876,132

Applicants again Request that the holding of abandonment be withdrawn in the instant application and that the Response to file Missing Parts be entered. Copies of all documents previously submitted to the USPTO in the above-identified application are re-submitted herewith.
